

## High Island Field Trip May 7, 2007

We had 12 photographers make the trip to High Island to photograph shore birds.

We all had a great time and took many great images. Norm took us on the scenic tour and we all got to see his farm where he grew up.

We made the circle and took the Galveston ferry on the way back to Houston .

It was a pretty long day and everyone was just a little tired when we got back.

We are now looking forward to the Brazos Bend State Park trip in July.

Get you cameras ready.
